ABOUT PRETECH

Pretech was founded in 2010 and specializes in the research and development of consumer electronics. We pride ourselves in quality of our products and excellent sales service. Our main product lines are Android, Linux and Windows based terminals, including tablet PC, smartphones, and notebooks, and active stylus solution for touch screen. Pretech's professional R&D, sales and service teams have many years combined experience and successfully delivered countless large ODM and OEM custom projects.

More recently, we have developed Android or Linux based smart terminals with LTE, Wi-Fi, Bluetooth, Zigbee, ZWave, NFC, 3D TOF camera and various interfaces for smart home automation, smart security application fields, in-vehicle infotainment system, car diagnostic system, sports equipment, healthcare information system, smart appliances, smart advertisement industry, simplified smart payment system, easy-to-use educational projects and numerous other application fields with smart interactive display needs. Pretech is deeply focusing on hardware and OS research, and development and we have helped lots of clients build their own smart terminals. Our products are CE, FCC, ROHS & Reach certified.

We remain true to our core values – always putting our customers first. If you have any new product ideas or concepts, please contact us. We are sure you will notice a world of difference and look forward to forming a long-term business partnership between you.
