From Challenge to Result

How L1208 hospitality configuration solves service industry pain points

● Common Hospitality Challenges

- High labor costs for front desk staff
- Long guest wait times during peak check-in
- Device theft risk in unattended locations
- Limited payment options for international guests
- Difficulty managing multiple service points

● Hospitality Solution

- 24/7 self-service check-in, ordering, and payment
- 64MP external camera + NFC for fast, secure guest verification
- Kensington lock + metal housing for theft prevention
- Multiple payment protocols via screen-under NFC
- Centralized remote management for all devices

Deployment Guide

Get your 12-inch NFC Tablets Android (Model: 1208) education setup running in 4 simple steps

01

Site Preparation

Install mounting brackets. Connect power and network. Configure Kensington lock security.

02

PMS Integration

Connect to Property Management System. Test room key programming and payment flows.

03

Guest Testing

Conduct user acceptance testing with sample guests. Optimize UI flow based on feedback.

04

Go Live & Monitor

Launch self-service kiosks. Monitor usage via remote dashboard, adjust as needed.

12-INCH NFC TABLETS ANDROID

"Our hotel chain deployed 12-inch NFC Tablets Android (Model: 1208) self-check-in kiosks across 45 properties. Guest satisfaction scores increased by 22%, and we reduced front desk staffing costs by 30%. The 64MP camera makes facial recognition fast and accurate."
