

Healthcare Solution: Accurate ID, All-Day Power

12-inch NFC Tablets Android (Model: 1208) + Metal Housing + NFC Wristband ID + 10000mAh Battery. Mobile rounds without interruption, patient identification accuracy 99.9%.

Recommended Config:

12-inch NFC Tablets Android (Model: 1208) + NFC Module + Fixed Dock + Disinfection-Resistant Coating

Designed for Clinical Environments

NFC Wristband Scanning:

Accurate patient ID, medication administration, record access

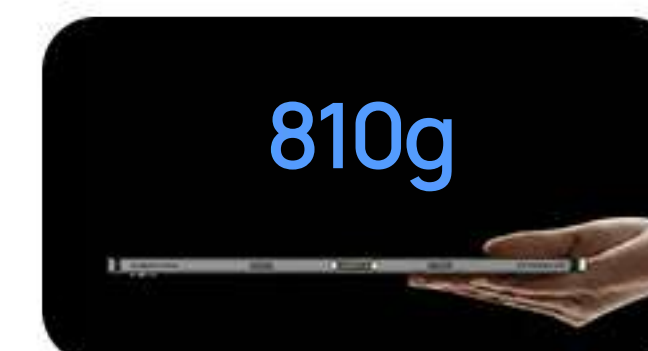

Metal Housing:

Withstands frequent disinfection, smooth surface prevents bacterial accumulation

10000mAh Dual-Cell:

All-day mobile rounds without charging interruption

Lightweight 810g:

Comfortable handheld use during patient rounds

Secure Data:

Encrypted storage, secure boot, compliance-ready for healthcare regulations

Optional Fingerprint:

Biometric authentication for staff access control

From Challenge to Result

How L1208 hospitality configuration solves service industry pain points

● Common Hospitality Challenges

- Device contamination risk from frequent contact
- Patient ID errors leading to medication mistakes
- Battery anxiety during long rounds
- Heavy devices causing staff fatigue
- Complex systems requiring extensive training

● Hospitality Solution

- Disinfection-resistant metal housing with smooth surfaces
- NFC wristband scanning for 99.9% ID accuracy
- 10000mAh dual-cell battery for 8+ hours continuous use
- Lightweight 810g design for comfortable handheld use
- Intuitive Android UI with pre-installed medical middleware

Measurable Outcomes

Significant

Rounds efficiency improvement

Near-Perfect

Patient ID accuracy rate

Substantial

Medical error reduction

Clinical Deployment Guide

Get your 12-inch NFC Tablets Android (Model: 1208) education setup running in 4 simple steps

01

Device Preparation

Apply disinfection-resistant coating. Configure NFC wristband protocol via Pretech Config Tool.

02

EMR Support

Connect to hospital EMR system. Test patient ID scanning and record access workflows.

03

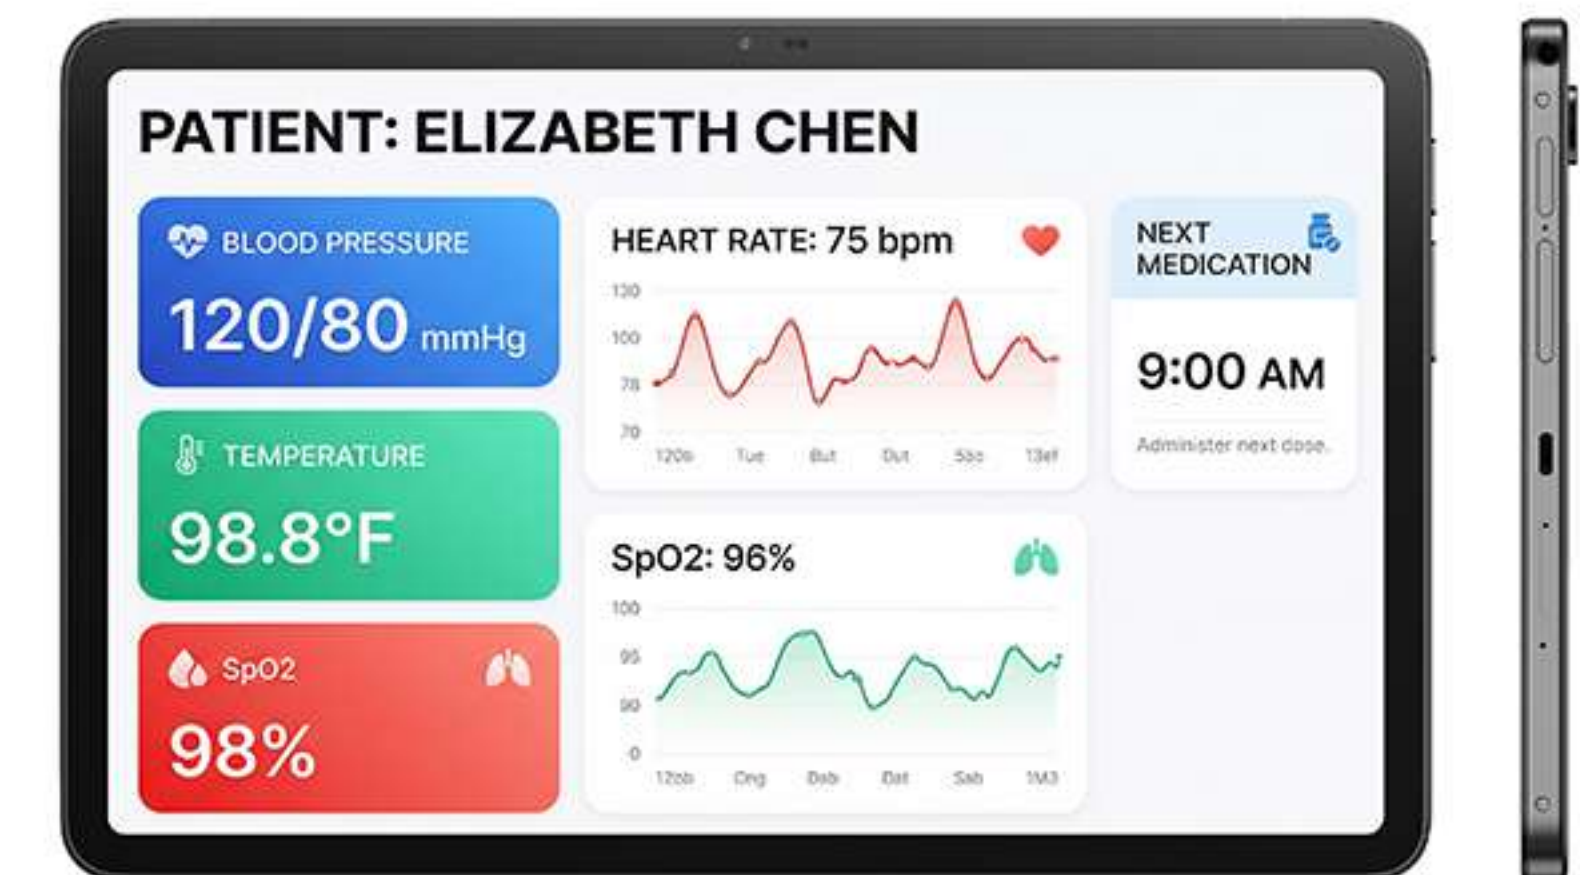

Staff Training

Conduct 2-hour training session. Focus on NFC scanning, medication verification, data entry.

04

Pilot & Rollout

Start with 1 department pilot. Gather feedback, optimize workflow, then full hospital deployment.

12-INCH NFC TABLETS ANDROID

"12-inch NFC Tablets Android (Model: 1208) has transformed our mobile rounds workflow. The NFC wristband scanning eliminated patient ID errors, and the battery lasts through our entire 10-hour shift. The metal housing is easy to disinfect between patients."

Nursing Director, Regional Medical Center
